**Fried's
Cat
Shelter**

Dear Loyal Supporters,

Thank you so much for your amazing support of our efforts here at the shelter!

I'm going to tell you about some special kids that were very lucky to find us. All three showed up here in a two week span.

Icee arrived on January 23rd. He was about 8 weeks old, with a severe head trauma. He could barely walk and couldn't see. With months of TLC and our wonderful TNR vet watching over him, he is now running everywhere and has perfect vision!

Douville was brought into our TNR clinic, January 31st, to be neutered. While under anesthesia he was found to have a broken jaw! After his neuter we whisked him off to the hospital for treatment. He is now completely healed and doing great. He was supposed to be released to his colony, but he is so sweet and loving we decided to keep him with us until he finds his furever home.

Rushy was also brought into the TNR clinic, on February 7th, to be neutered and released. Upon his examination he was found to have a broken leg! Another trip to the hospital! He is doing great as well. And, you guessed it, we kept him too!

Their pictures are on our photo page so you can check them out! Or, better yet, come visit us at our Open House June 23rd & 24th so you can visit them in person!

As always, your donations, large or small, to help us keep helping our kids are greatly appreciated.

Sandra O'Dell

Cats and kittens

and wristbands.

From the Desk of Charlie, Jr.

Dear Human Friends,

Remember Baron from our last newsletter? His foot healed and he graduated to a big bin with 20 other cats. He does not mind that they all have FIV because he tested positive for FIV himself. His former bin with the ramp was occupied by Rocky, a big brown tiger and white with a crippled front foot. He made good use of the ramp, but on one of his stays at the vet, a lady fell in love with him, and now he has a forever home.

Over the past few years I noticed that most of the pregnant cats brought to the shelter are kittens themselves (less than 1 year old). This is dangerous for the mothers because their bones are still growing and the kittens in their belly use up all the nutrients, and their bones get brittle and stop growing (you humans call it osteoporosis).

How do I know this? The vet in our TNR (Trap-Neuter-Release) Clinic has come across pregnant cats who look like kittens, but are really 2-3 year olds, and have had kittens before. Please, human friends, have your female kittens (and males to prevent spraying) spayed when they are 4 - 5 months old before they get pregnant.

I hope you will come and visit us at our Summer Open House!

Charlie, Jr.

Rocky at his new forever home.

Wish List

Canned cat food, scoopable litter, trash bags (13 and 33 gallons), paper towels, paper plates (6" and 9"), Clorox disinfecting wipes, first class postage stamps, computer paper (8 1/2 x 11), laundry detergent, bleach, Advantage II, Nutrical, and furnace filters (16x25x1 and 16x20x1).

Bangles and Pickles would like you to

COME FOR A VISIT

Fried's Cat Shelter
509 S. Indiana Hwy 212
